JABLE EYE AND EAR. DURING

my late tour in Enrope, I obtained several new
Instruments and Remedies of Incalculable value in my
speciality. There is now nothing known to the faculty
incher hemisphere with which I am not familiar,
which, combined with an extensive practice for 20
years in the city of New York, cushles me to restore
EIGHT and HEARING in many cases hitherto deemed
hopeless. Cataraot positively corred by a new method,
without pain; also, Squinting or Cross Eyesin a few
seconds. Amanrosis cured in the majority of cases,
Granulatious, Ulcers, Films or Spees, and Watery Eye,
juvariably; also, Deafness, Singing in the Ear, and
Discharges, by an entirely new, rocess. My "Treaties
on the Eye" (price 50 cents), also ARTIFICIAL
EYES, which move and look exactly like the natural
eye, and are inserted without an operation, and all
Bemedies, forwarded by mail. Consultations by letter
receive expecial attention.

We observe, too, that the editor has not clasorerei yot that Buchanau got 152 votes—three more
than enough to elect him—In spite of both factions; for he says the firmness and resolute resistneed of the American party "to coalition with
sectionalism saved not only the Democratic party
from defeat, but the Union itself from dissolution."

This certainly comes with an ili grace from an
organ that advised coalition in Indiana, and
whose particular friends, Botts and Rayner, nrged
it with so much eval. All the resistance to cealitions with sectionalism is due to a few Filimere
men in the free States; not to the Fillmore leadors of the South.

They should apply themselves with diligence to their allowed studies by day, reflect at night npot what they had thus acquired, and appropriate it as their best capital with which to orgage in the strangles of life. He had met with many men of prominence who had looked at the interes of a great many books, and had a general smattering great many books, and nad a general small of of knowledge, but it was all sarface work, and of no practical use. Mr. Buchanan remarked that his election had been alleded to, and he might be expected to say something on that point. He had been closted to the high and responsible of fice of President, and he thanked them oeroly for their congrutulations; but whether the event would prove to be a unster of congratala-tion time alone can determine. Without easing which party was right or which was wrong, the fears of "the father of his country" had at last been realised, and we now behold a sectional party
-oe portion of our Union arrayed in political
hostility against the other. The object of his administration would be to destroy any section at party-North or South-and harmonise all sections of the Union under a national and conservative government as it was plift years ago Unless this be done, the time mey come when these ecctional animosities which now unhappily exist, may break up the fairest and most perfect form of government the sun over

Negro Insurrection. 800 Negroes Marching on Lafayotte and Hopkinsvilles

[Correspondence of the Louisville Conrier.] HOPKINSVILLE, Dec. 8, 1856.

W. N. Haldeman, Seq.

Dram Star Onr little town is np in arms at the present writing, "The nogroes are marching upon us," is hoard from every mouth. This merning several messeogers arrived from Lafapette, a small town eighteen miles conth of Hopkinsvike, calling on the citizens of this place to come to their assistance. They were manually in senesting as sistance. They were momentarily expecting an acrack from about six handred negroes. About 150 persons leit immediately for the "seat of war." They were in command or Capt. James Jackson and Sheriff Gowan. Hopkineville is strongly guarded. It is rumored we will be attacked to-night. I will write you again to-morrow. Would telegraph, but all communication has been ent off -the telegraph poles being cut down. Appended -the telegraph poiss using is our extra issued this morning. CORPORAL. Yours, in haste,

(From the Hopkinsville Press-Bxtra.) HOPKINSVILLE, Dec. 3, 1856. Our whole community was thrown into a state

of Interes excitement this morning upon the re-ceipt of the following letter from Lafayette: VIGILANCE COMMITTEE ROOMS. LAPATETTE, KY., Dec. 2. '68

Gantlemen of Hopkinsville: From reliable information we expect an attack from the negroes of the Iron Works on our sown The faculty and sindents marched in procession to-morrow morning, perhaps to-night. Please JOHN H. RUSSELLL, Sec'y. H. S. SYPERT, J. P FLINT. J. W. FRASER.

> J. R. SMITH, Com. The Secretary of the Committee adds the fcllowing, predicated upon which their apprehension ls based:
>
> "The negroes of Eclipse, Clark, and Lagrange,

"The negrees of Eolipse, Clark, and Lagraege, have united and are marching towards Dovor, and were within eight miles of that place when last heard from. Their intention is to relieve the negroes at Dover, then march to the Rolling Mill, then to Bell Wood Furnace, then though Lafayette on to Hepkinsville and the Chio river."

This statement, taken in connection with the fact that a results play for an insurrection has fact that a regular plan for an insurrection has been detected at Ciarravitle, is truly alarming. We think, however, the secount somewhat based on rumor and not altogether reliable. on rumor and not altogether reliable.

It is high time that steps were belog taken for our defense in case of an inentrection. We have not a stand of arms in this whole section of the country, and no organized military. We are requested by many of our best citizens to call a meeting of the citizens of the county at this place, on Friday next, the 5th last, to take immediate action upon this subject. Other questions of great importance obtains to the arrangelist.

RAND'S PREMIUM STOCK

MILL is now admitted to be the best mill of the
kind extant. It has, on several occasions, contended
for the award of merit with other mills, and particularly with the famed "little fant," and in every instance has taken the premium. At a recent trial with
the latter upon the Fair forounds of the Southwestern
Agricultural and Mechanical Association, it again
took the prise. It stands now without a rival.

This mill combines three principles—that of cutting
with several steel blades, with that of crushing and
grinding. It is heavier and stronger, and less liable
to break or get out of repair, than any other mill before
the public. It is more easily adjusted, being set coarse
or fane by a single screw, which may be done by a boy
ten years eld. It may be used for eatting and grind
ing apples, turnips, beets, and rutabages, and with
